MUHAMMAD HASHIM ABDUL SATTAR

SOFTWARE ENGINEER | FULL-STACK WEB APPLICATIONS

Pakistan | Remote | muhammadhashimabdulsattar@gmail.com
linkedin.com/in/muhammad-hashim-abdul-sattar-b72410440

PROFESSIONAL SUMMARY

Software engineer with a development career spanning 2019 to present, including senior engineering and remote full-stack roles. Experience building web applications with React, TypeScript, Node.js, Angular, and Python; integrating REST APIs; and working with PostgreSQL. Own assigned features through release and production support, write automated tests, review code, and mentor junior developers. Use AI coding assistants while retaining responsibility for validation and code quality.

CORE TECHNICAL SKILLS

Languages and frameworks: JavaScript, TypeScript, React, Angular, Node.js, NestJS, Python, Django, Flask

APIs and databases: REST APIs, JSON, SQL, PostgreSQL, SQLAlchemy, Celery, Redis

Quality and delivery: Unit, integration and end-to-end testing; code review; Git; CI/CD; Docker; AWS

Engineering practices: Feature ownership, production troubleshooting, technical documentation, mentoring, AI-assisted development

PROFESSIONAL EXPERIENCE

Creative Chaos | Full Stack Developer

Oct 2023 - Present | Full-time, Remote

- Develop and maintain full-stack web applications using Angular, React, TypeScript, Python, Django, and Node.js, collaborating with cross-functional remote teams.
- Build and integrate RESTful APIs with JSON data exchange, input validation, and error handling; investigate PostgreSQL query performance and improve database interactions.
- Own assigned features from technical planning through release and production support, proactively communicating risks, bugs, and technical debt.
- Investigate L2/L3 defects and production issues, identify causes, implement fixes, and communicate findings and resolution progress.
- Write and maintain unit, integration, and end-to-end tests to validate functionality and prevent regressions.
- Review code and mentor junior developers through implementation guidance, constructive feedback, and troubleshooting support.
- Use AI coding assistants for implementation, refactoring, and documentation; review, test, and validate generated code.
- Use Docker and AWS to support containerization and automated deployment workflows; document APIs, technical decisions, and troubleshooting procedures.

PROFESSIONAL EXPERIENCE / CONTINUED

NorthBay Solutions | Senior Software Engineer, Angular

Jul 2021 - Jun 2023 | Full-time, Remote

- Developed and maintained Angular applications using TypeScript, building reusable components and integrating frontend functionality with RESTful APIs.
- Collaborated with cross-functional teams to clarify requirements, deliver features, and resolve frontend and integration issues.
- Developed backend services using Python, Flask, SQLAlchemy, PostgreSQL, Celery, and Redis according to project requirements.
- Contributed to automated testing and CI/CD workflows using Docker and AWS; owned assigned features through implementation, release, and production troubleshooting.

Arkhitech | Senior Software Engineer

Feb 2020 - May 2021 | Full-time, Pakistan

- Contributed to full-stack web application development, building backend services, frontend interfaces, and RESTful APIs using Node.js and NestJS.
- Participated in PostgreSQL data modeling, schema design, and query optimization to support application performance.
- Used Git, unit and integration testing, and CI/CD workflows; collaborated with engineering and product teams to troubleshoot production issues and deliver maintainable features.

Tkxel | Software Engineer, Platform Engineering

Apr 2019 - Jan 2020 | Full-time, Onsite, Pakistan

- Developed and maintained web application features using JavaScript, TypeScript, React, Node.js, and NestJS in collaboration with the engineering team.
- Built and integrated RESTful APIs with JSON data exchange, validation, and error handling; contributed to PostgreSQL design and SQL query optimization.
- Supported AWS and CI/CD deployment workflows, investigated application defects, implemented fixes, and documented troubleshooting findings.

EDUCATION

Bachelor of Science in Computer Science
Virtual University of Pakistan | 2014 - 2018
